Planning to surprise someone?

Follow one of these methods to determine the finger size of the lucky recipient of your gift.

MEASURE WITH A RING

1. Choose a ring that belongs to your lucky person
2. Place the ring on the circles below
 - When the black circle touches the inside of the ring, it corresponds to the circumference of your finger
 - Ensure the entire black circle is inside the ring without showing through the grey background

3. If you are unsure between two sizes, opt for the larger one.

Fingers may swell occasionally, and it is more comfortable to have a slightly larger ring than a tight one.

4. Do not worry, resizing is complimentary.

If the size you ordered does not fit, Gemmyo will resize your ring free of charge.

5. If the person you want to surprise does not have a ring, contact us at hello@gemmyo.com.

We will help you estimate the correct finger size, and you can then have the jewelry resized at no cost to ensure a perfect fit for your friend !

ADVICES 2

1. Measure your finger at different times of the day.

2. Avoid measuring when your finger is hot or cold.

3. Note that measurements may vary slightly between the same finger on the left and right hand.

4. Ensure the chosen size allows the ring to slide easily over your entire finger.
